

2014-2015 Annual Report of the Curriculum Committee

We have been blessed to have more than forty-four incredibly talented people donate their time to be instructors for our senior college this past year. In addition to the classes taught by individuals, we have been able to offer a number of courses taught by a team of instructors so the number of instructors is actually much larger. Because of their generosity and expertise, the curriculum committee has been able to offer forty-three full-length course and fourteen special classes.
