

Treasurer's Report to Membership for Fiscal Year Ending June 30, 2018

Fiscal year 2018 closed out with a favorable comparison against FY17. In summary, our revenue was higher this year and our expenses were lower. The graph below illustrates:

From our classroom associated activities we registered a surplus of almost \$20,000.

The financial highlight from the FY was the creation and implementation of the Annual Appeal which garnered \$6770 in donations first time around. We also managed to increase the balance in the Rediker Account (which serves as our Scholarship Fund) to \$1775. If you know of any BSC students or potential students who are struggling financially, we can help them.

All in all FY2018 was a good fiscal year.

Respectfully submitted,

Jim Taber
Treasurer
